TWENTY YEARS OF BUILDING HOPE

MUSICAL PATHWAYS TOUR

SOUTHEASTERN TÜRKIYE, OCTOBER 20 - 26, 2026

ABRAHAMPATH.ORG

Both civilization and monotheism began in Mesopotamia, only miles apart from each other. Join the Abraham Path Initiative and an intimate group of travelers as we journey to Türkiye to discover, explore, and answer the questions:

“What happens when thousands of years of music collide? What can come of a unique collaboration between classical and ancient music when we return to the place where civilization began? How will we be changed as listeners and travelers?”

From the mythical caves of Abraham’s birth, through the lands where the first crops were cultivated, to the magnificent 11,000-year-old Göbekli Tepe, we will tour the storied sites of the region and take part in a unique cultural exchange between the Vienna-based Morphing Chamber Orchestra String Quartet, with concertmaster Yuuki Wong, a prize winner at the 2005 Sibelius Violin Competition; Soprano Sevcin Aran; and musicians from Şanlıurfa, Türkiye, a UNESCO City of Music, who practice their ancient and distinctive musical traditions.

- Goodbyes and Departure from Urfa

Spend a day walking in Mardin, home of the Syriac culture, whose language is the closest living descendent of ancient Aramaic, the language of Jesus. The entire city is a UNESCO World Heritage Site characterized by millennia-old churches, monasteries, steep streets, and the Mardin museum.

Walk the ancient city of Şanlıurfa, first settled in 9000 BC. Visit the Pool of Abraham, Rızvaniye Mosque, and the Şanlıurfa Museum, the largest museum in Türkiye. Shop at the Kapalı Çarşı Bazaar and enjoy the city's fine restaurants.

Step back in time with a visit to Harran, known for its unique beehive-shaped houses, ancient ruins, and rich history.

Join our musicians as their perceptions of the nature of music and art are transformed through this unique cultural experience across time, space, and culture, culminating in an intimate concert in the heart of Şanlıurfa.

Explore the 11,000-year-old Göbekli Tepe, the world's oldest known building, built by groups of hunter-gatherers in the Pre-Pottery Neolithic period and now a UNESCO World Heritage Site.

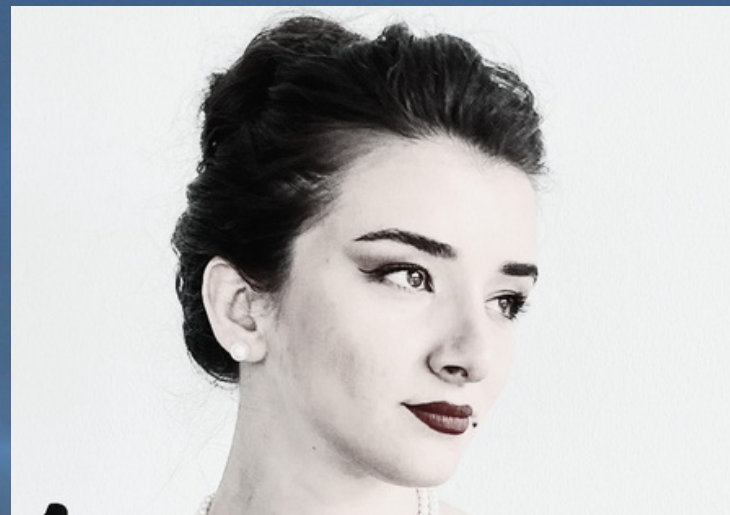

Your Hosts
